### **2026 Available Ground Maintenance Services**

- ☐ **Mowing:** Lawn will be mowed to maintain a height of 2 to 4 inches. Generally on a weekly basis. Trim around all obstacles, blow clippings free of driveways and side walks.
- ☐ **Core Aeration:** Recommended every year for sodded yards. Recommended every 2-3 years in seeded yards. Removes 1/2 inch diameter plugs from soil. Allows water, oxygen and nutrients to reach root zone. **Please check if you have:** ☐ Sprinklers ☐ In-ground Fencing
- ☐ **Spring Fertilizer:** To be applied in spring after turf is actively growing. I use a well balanced fertilizer to stimulate growth and green up turf quickly.
- ☐ **Treat for Worms:** Should be done every year if your lawn has them.
- ☐ **Treat for Crabgrass:** (approximately May 15th)
- ☐ **Spring Spray For Dandelions & Other Broadleaf Weeds:** (after May 15th)
- ☐ **2nd Treatment For Crabgrass:** (approximately June 15th)
- ☐ **2nd Application of Fertilizer:** (approximately June 15th)
- ☐ **3rd Application of Fertilizer:** Recommended for watered lawns only. (approximately July 15th)
- ☐ **Fall Spray for Dandelions & Other Broadleaf Weeds:** (after Aug. 1st)
- ☐ **Fall Fertilizer:** Increases health of lawn, so turf winter well. (after Sept. 15th)
- ☐ **Prune:** shrubs and bushes (anytime)
- ☐ **Landscape Design/Rock Bed:** Check here for FREE estimate.
- ☐ **Reseed:** Top dress with black dirt, dead or thin spots in lawn and reseed.
- ☐ **Edging:** Edge around all sidewalks, driveways etc. to eliminate turf growth.
- ☐ **Spring Clean-up/Thatch:** Remove dead plant tissue, leaves, twigs and old debris accumulated over the winter months. (early spring)
- ☐ **Fall Clean Up:** Remove leaves from lawn and haul away.
